

2022 UC DAVIS LAW REVIEW WRITE-ON TRAINING
BLUEBOOK EXERCISE

This exercise is illustrative of the Bluebooking that will be completed during the Write-On. The methodology for Bluebooking that will be covered during the Write-On training applies to this exercise, and Bluebooking instructions are provided below. After the Write-On training, the Executive Editors (“EEs”) will be available to answer any questions about this exercise via email. The EEs are Benjamin Baek (bdbaek@ucdavis.edu), Taryn McLaughlin (tamclaughlin@ucdavis.edu), and Nicolas Warren (nswarren@ucdavis.edu).

This Bluebooking exercise consists of six footnotes. Please edit the citations in each footnote as if they were in a *UC Davis Law Review* article. Use the Twenty-First Edition of *The Bluebook* and the Fourteenth Edition of *The Goldbook: Usage, Style & Citation Manual* (available in PDF format on the *UC Davis Law Review*’s website under the “Prospective Members” tab).

For any citation that you believe is missing any information (pincites, year, etc.) simply indicate where to place the extra information based on the instructions below. **Do NOT go searching for it (most are fictitious sources)**. However, if the extra information is located in another citation within this exercise, use that information when possible.

Indicate information that should be added by using greater-than and less-than symbols (< >) and capital letters. For example, to indicate that a citation needs a pin, type “<PIN>” in the appropriate place. To indicate that the citation is missing a year, type “<(YEAR)>” in the appropriate place. Similarly, to indicate a missing parenthetical, type “<(PAREN)>” in the appropriate place.

Below is an example of how changes should be made:

Incorrect Citation: *Green v. Tanaka*, 123 US 125; *See e.g., Hunt, supra* note 14, at 789

Corrected Citation: *Green v. Tanaka*, 123 U.S. 125, <PIN> <(YEAR)>; *see, e.g., Hunt, supra* note 14, at 789 <(PAREN)>.

In this Bluebooking packet, you are NOT required to highlight citations; instead, just make the necessary changes. Remember, Bluebooking errors include (but are not limited to) improper typeface (e.g., small caps, italics), placement of certain information (e.g., improper placing of volume numbers in a journal citation), missing punctuation, spacing, etc.
